George Turner, *Where Forest Meets Sea*, 2022

Webb's Wellington cordially invites you to the opening of its latest group exhibition: *Formations*.

This exhibition explores the process of personhood and its formation through the works of three contemporary artists: Will Bennett, George Turner and Yeonjae Choi.

Through painting, sculpture and digital works each artist closely examines the culture, shared histories, colonialism and mythologies that have played a part in forming who they are.

Please join us on 1 May for drinks and nibbles as we explore these insightful and luminous works.
